## Dr. Bilski and Staff Find New Home

It's official...after more than 18 years in their second floor office above Key Bank, Dr. Bilski Family, General & Cosmetic Dentistry made the leap into a new 5,100 square foot facility a few blocks down the road on November 30, 2006.

More than a hundred guests were in attendance, including: current and new patients, public officials and medical and dental professionals. As guests eagerly entered the new facility, they were quickly greeted with a personal smile from a staff member and a plush waiting area decorated with thick couches and warm tones of beige and brass on the wall.

As guests were given personal tours through the new facility, they quickly found that it was much more than a regular dentist's office. With the addition of northeast Ohio's first medical/dental spa, Spa 21, slated to open in the summer, and a variety of other amenities, patients and

customers will have an endless array of services to choose from, including:

- VellaSmooth cellulite reduction
- Laser hair removal
- Massotherapy services
- Botox w/ collagen

"The new office is unbelievable," said Tammy Catanza, long-time patient of Dr. Bilski Family & Cosmetic Dentistry. "It looks more like a spa than a dentist's office. It's so inviting...I feel like I want to stay all day when I'm there."

The new facility also has all new, state-of-the-art dental equipment to ensure that, you, our valued customers receive the best care possible. Give us a call anytime to setup a consultation for our general or cosmetic dental services at 216-524-4410 or visit [www.cosmeticdentistcleveland.com](http://www.cosmeticdentistcleveland.com).
